

Where
a new living experience
awaits you

Location of the project

Adjacent to Salt Lake and the Airport Area of the VIP Road, it is the choicest site in Action Area I of New Town Kolkata that stretches over 3075 hectares of lush green, pollution-free land. A premium residential project, **Millennium Towers** is just across the road where another posh WBHB project has already come up – East

Enclave, marking a new chapter in quality residential accommodation in Kolkata. Significantly, it is close to Krishnapur Canal which is being de-silted and beautified with a promenade which would enhance the natural surrounding for the residents to enjoy.
