Toilet door – PVC shutter with PVC frame  
Kitchen door – Commercial flush door  
Doors at Stair room – F.R.P. shutter with F.R.P. frame
- G. **Window**  
Steel window with integrated grill

### Important :

The dimension of plinth and floor areas as well as configuration as shown in Building plans are approximate and minor deviation from the plan/layout may be made during construction which will have to be accepted by the purchasers. The furniture layout as shown is merely suggestive. Some modification & alteration of specification & dimensions may be made by the Board, if required, during construction of works.

### Other Facilities

#### Management Office

Management Office will be provided for maintenance of common services & areas within the project.

#### Electricity

Internal Electrical wiring in flats and individual houses will be done by concealed wiring with copper conductor wires to adequate number of light, fan, plug points etc. with provision of point out-lets for geysers and Air-conditioners. G+4 storied buildings will be provided with one collapsible door type lift in each building. Light fittings will be provided in common stair, lobby etc. in these buildings. Street lights will be provided in the internal roads of the housing complex. Every effort will be made for electric meter connection by local power supply authority (The DPL) to individual houses and flats against owners' applications to the DPL. However, on the insistence of the DPL for Bulk-power supply to the housing complex through a single meter, the same will be in the name of the Owners' Association. Individual Allottees will then get connection from the Association in a manner as would be settled between the Association and the individual allottees. All operation and maintenance charges of the common area utilities will be borne by the Owners' Association.

#### Water

Each Duplex House/Flat will be provided water connection through water line grid. The source of water will be Deep Tube Well/Local Water Supply Body/Local Municipality. The pump house, tube well, water line grid etc within the cluster will be maintained by the Association/Co-operative society formed by the allottees. In case, the Local Body/Municipality supplies water, then the water charges towards the supply of water will be borne by the Co-operative Society/Association. Board will have no responsibility in this regard.

#### Sewerage

Sewer lines will be laid and connected to each dwelling unit. The sewage from individual units along with kitchen waste will be connected to Common/Main sewer of the project which will be ultimately discharged into Municipal/Local Body sewer line. The storm water of individual unit will be discharged in surface drain of individual unit ultimately connected to Municipal/Local Body surface drain.

#### Handing Over of Common Areas & Facilities

After completion of the project, Common Areas & Facilities (CAF) will be handed over to the Housing Co-operative

## Possession

The dwelling units will be ready for possession after 42 months (approx.) from the date of lottery, subject to force majeure and unforeseen circumstances beyond the control of the Board.

## Mode of Payment

1. The successful applicants in the lottery will be intimated through the allotment letters. The allottees successful in the lottery may have the option to deposit the entire price at a time within 2 months from the date of issue of allotment letter and in that event they may get a rebate of 4% on price of dwelling units for such payment. However, no rebate will be allowed on payment beyond 2 months from the date of issue of allotment letter.

2. An allottee may however, deposit the Provisional allotment money within 2 months from the date of issue of the

allotment letter and balance in 3 installments each, as indicated in Table-3. The first installment will start within 10 months, from date of issue of allotment letter.

3. Penal Interest @ 15% p.a. will be levied for delayed payment of allotment money/stage payment of allotment money. If the delay of payment of allotment money is beyond 6 (six) months from the date of issue of allotment letter, the allotment may be automatically cancelled without any further reference to the allottee. If the delay of payment of installment/stage payment money is beyond 3 (three) months from the due date, the allotment may be automatically cancelled without any further reference to the allottee. In the event of allotment of dwelling units made, subsequently the price of dwelling unit may not remain the same as indicated. The Board reserves the right to change the price of dwelling units as decided by the Board.
